

BACK

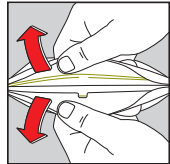

5.375" Wide x 8" Tall

ZIPPER

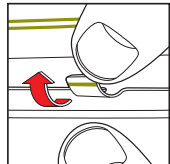

TO OPEN

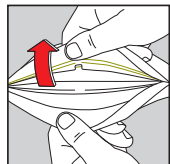

1. Separate top of bag to reveal green line

2. Pull further apart to locate tab

3. Grab tab & pull over with thumb

4. Pull tab toward opposite side of bag to open

TO CLOSE: Press & slide to close, ensure tab is re-engaged

GRAPHIC REQUIRED WITH USE OF THE SECURE STASH ZIPPER

If your pouch will be using the Secure Stash Zipper, the above graphic must be included in your design and appear at this exact size and location. It cannot be moved or re-sized.

If zipper is NOT needed, then the graphic is not required.

Before starting your design, click or scan the QR code below to review the Artwork Setup Guide for Roastar's artwork requirements.

SO# 000000

BOTTOM

3" Gusset

Bleed

Any color or graphics that stop at the edge of the document or at the fold line of the front or back panels, must extend into the 'bleed area', 1/16" past the trim on all sides and onto the bottom gusset.

Trim

Where the pouch will be cut.

Safe Area

Important text and graphics must remain inside the green lines to avoid being trimmed or folded.

Fold

Where the pouch will fold.

Heat Seal

Color variation can occur in heat seal areas.

Cut Tolerance

To account for our cut tolerance, we recommend the design match from one side of the pouch to the other.
